# Planning for the 1<sup>st</sup> UN Food Systems Stocktaking Moment

# Planning for the Stocktaking Moment of 2023

"I will convene a global stocktaking meeting every two years to review progress in implementing the outcomes of this process and its contributions to the achievement of the 2030 Agenda. This will be supported by the RBAs, the broader UN System and partners."

-UN Secretary General Statement of Action, FFS

## Dates: 24-26 July in FAO HQ, Rome

**Modality:** A UN SG event, hosted by Italy in collaboration with the RBAs and the Hub.

Main objective: Give space to countries to review with the UN, EoS and stakeholders progress on implementing their food system transformations/changes, identify bottlenecks and support needed.

**Outcome:** Solidify the global understanding of the role of food systems in achieving the SDGs, especially in the context of the current food and cost-of-living crisis.

# **Inclusivity of themes (connect the agendas)**

"We remain committed to keeping a strong focus on the sustainable transformation of the global agrifood system, aiming for a global system that can deliver sufficient, safe, affordable, nutritious food and healthy diets for all people and provide employment and income, particularly in rural areas, while at the same time fully respecting planetary boundaries in line with the 2030 Agenda, the Paris Agreement, the United Nations Framework Convention on Climate Change and the Convention on Biological Diversity and its upcoming post-2020 global biodiversity framework."

This slideset presents a set of ideas that are informing the design of the 2023 UN Food Systems Stocktaking Moment. The actual format, programme and other details of the event are under review and revision by the Hub's Oversight Steering Group (Principals of FAO, IFAD, WFP, WHO, UNEP, DCO and the UN DSG). To this extent the current slideset is not preempting any official document or information to be released on the way to the stocktaking moment.
