

UN Food Systems Summit +2 Stocktaking Moment 2023

Global Touchpoint with National Convenors

Wednesday 05 July 2023

Concept Note

Summary

The UN Food Systems Coordination Hub is convening two final global touchpoints on the preparation of the first UN Food Systems Summit Stocktaking Moment (UNFSS+2 - STM) which will take place in Rome 24-26 July 2023.

The touchpoints will provide National Convenors and other Government Officials the opportunity to receive the latest technical information on preparations for the UNFSS+2 - STM, including on the programme, on opportunities for engagement by National Delegations, and on logistical questions.

The touchpoint will also enable the Hub to inform National Convenors and other Government Officials on how the 101 Voluntary Progress Reports and many good practices received are informing the upcoming Report of the UN Secretary-General on food systems transformation. This new insight will also be key in shaping the Call to Action expected to be issued by the UN Secretary-General at the closing of the event, to set the direction of efforts in the next biennium and in particular, in light of the SDG Summit and the upcoming COP 28.

National Convenors and other Government Officials will have space to raise questions and seek recommendations as they prepare their national delegation's engagement into UNFSS+2 - STM. The touchpoints are open for participation by National Convenors and their teams and other government officials, Permanent Representatives to the Rome-based agencies, UN Resident Coordinators, and UN country teams, as well as the broader ecosystem of support.

Register:

- 08:00-9:30 CET in English, with interpretation in Chinese, Russian and Arabic :
